PROFESSIONAL SUMMARY

Highly skilled software development professional bringing more than 5 years in software design, development and integration. Offering advanced knowledge of Front End and Back End programming languages.

SKILLS

- HTML/CSS
- JavaScript
- Python
- C#
- .NET
- LUA
- Operating Systems: Windows (XP-10), Linux(Gnome, Mate, LXDE, XFCE)
- MySQL, SQL Server 2019

- Visual Studio, Eclipse, IDLE
- Agile/Scrum Methodology, Git, Azure
- Databases
- Object-oriented programming
- Relational database design
- Tech Support
- Product development

WORK HISTORY

Mar 2020 - Current
Syracuse, NY

Software Developer / Smarta
- Collaborated on all stages of systems development lifecycle, from requirement gathering to production releases.
- Coordinated with project management staff on database development timelines and project scope.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.

Jul 2015 - Current
OH

Embroiderer / Innovative Stitching
- Using a CAD-like program (Design Shop Pro), I designed files for customers, maintained computer environments and troubleshooted various issues.
- Fixed and maintained large mass production embroidery machines.
- Tech Support for the business software itself and multiple computers running windows.
- Managed a design file server to host the files on and pull to the machines themselves.
- Converted art into stitches by vectorizing and digitizing the source into a compatible format for the machines.

Mar 2020 - Jul 2020
OR

SOFTWARE DEVELOPER / Prosper IT Consulting

- Created, fixed and managed code throughout the entirety of the project.
- Utilized Agile/SCRUM methodologies to create a well suitable and maintainable workflow.

EDUCATION

Software Developer Bootcamp Certificate / The Tech Academy

Intensive, boot camp-style training with more than 600 hours of instruction and hands-on work in: Fundamentals of Computer Science, HTML/CSS, JavaScript, C#, Python, ASP.Net, web application development, WordPress, object-oriented programming, Agile/Scrum, source control, relational database design and management, SQL programming and more.
